

# Open Security Summit 2020 Pre Conference Training

A glorious TWO HOUR long rant by @catswetel

WARNING

# WARNING

Not a security expert

# WARNING

None of this is Wardley Approved

# Nope

Not here to teach you about  
how to use online tools.

# Yep!

Intro to Wardley Maps  
Some tips and tricks for getting started  
Unique perspective

# WARNING

Lots of Star Trek

**Use the chat  
and/or reactions!**

# Who's heard of Wardley Maps?

0 - Never

1 - Heard of them, but don't know what they are

2 - Know what they are, never done one

3 - Have created a map before

4 - Have created maps, used doctrine, etc

“I’m excited to create my  
first map!”

@CATSWETEL

# What is a Wardley Map?

A tool for thinking about  
the evolution of value chains

# What is Wardley Mapping?

A set of tools for navigating the evolution of sociotechnical systems.

## Wardley Map

A tool for  
thinking about  
the evolution of  
value chains

## Wardley Mapping

A set of tools  
for navigating  
the evolution of  
sociotechnical  
systems.

# Value Chain

Stage (of Evolution)	I	II	III	IV
Activity	Genesis	Custom	Product (+rental)	Commodity (+utility)
Data	Unmodelled	Divergent	Convergent	Modelled
Practice	Novel	Emerging	Good	Best
Knowledge	Concept	Hypothesis	Theory	Universally Accepted
Characteristics				
Ubiquity	Rare	Slowly increasing	Rapidly increasing	Widespread in the applicable market / ecosystem
Certainty	Poorly understood / exploring the unknown	Rapid increases in learning / discovery becomes refining	Rapid increases in use / increasing fit for purpose	Commonly understood (in terms of use)
Publication Types	Describe the wonder of the thing / the discovery of some marvel / a new land / an unknown frontier	Focused on build / construct / awareness and learning / many models of explanation / no accepted forms / a wild west.	Maintenance / operations / installation / comparison between competing forms / feature analysis e.g. merits of one model over another	Focused on use / increasingly an accepted, almost invisible component
General Properties				
Market	Undefined market	Forming market / competing forms and different models of understanding	Growing market / consolidation to a few competing but more accepted forms.	Mature market / stabilised to an accepted form
Knowledge management	Uncertain	Learning on use / focused on testing prediction	Learning on operation / using prediction / verification	known / accepted
Market (Ecosystem) Perception	Chaotic (non linear) / Domain of the "crazy"	Domain of "experts"	Increasing expectation of use / Domain of "professionals"	Ordered (appearance of being linear) / trivial / formula to be applied
User perception	Different / confusing / exciting / surprising / dangerous	Leading edge / emerging / uncertainty over results	Increasingly common / disappointed if not used or available / feeling left behind	Standard / expected / feeling of shock if not used
Perception in Industry	Future source of competitive advantage / unpredictable / unknown	Seen as a competitive advantage / a differential / looking for ROI and case examples	Advantage through implementation / features / this model is better than that	Cost of doing business / accepted / specific defined models
Focus of value	High future worth but immediate investment	Seeking ways to profit and a ROI / seeking confirmation of value	High profitability per unit / a valuable model / a feeling of understanding / focus on exploitation	High volume / reducing margin / important but invisible / an essential component of something more complex
Understanding	Poorly understood / unpredictable	Increasing understanding / development of measures	Increasing education / constant refinement of needs / measures	Believed to be well defined / stable / measurable
Comparison	Constantly changing / a differential / unstable	Learning from others / testing the water / some evidential support	Competing models / feature difference / evidential support	Essential / any advantage is operational / accepted norm
Failure	High / tolerated / assumed to be wrong	Moderate / unsurprising if wrong but disappointed	Not tolerated /assumed to be in the right direction / resistance to changing	Surprised by failure / focus on operational efficiency
Market action	Gambling / driven by gut	Exploring a "found" value	Market analysis / listening to customers	Metric driven / build what is needed
Efficiency	Reducing the cost of change (experimentation)	Reducing cost of waste (Learning)	Reducing cost of waste (Learning)	Reducing cost of deviation (Volume)
Decision Drivers	Heritage / culture	Analysis & synthesis	Analysis & synthesis	Previous experience
